

INTERNATIONAL UNION OF ANGIOLOGY

XXIX IUA WORLD CONGRESS

President of the Congress

Pier Luigi Antignani

First Announcement

**April 22 - 26, 2020
Rome, Italy
Ergife Palace Hotel**

www.iua2020.com

INVITATION FROM THE PRESIDENT OF THE CONGRESS

Dear Friends,

it is a great pleasure to announce that XXIX WORLD CONGRESS OF THE INTERNATIONAL UNION OF ANGIOLOGY will be held in Rome (Italy), from April 22nd to 26th, 2020 at the Ergife Palace Hotel.

The scientific programme will include multidisciplinary symposia, plenary lectures, consensus meetings, workshops and free paper sessions on the major topics and advances in the fields of angiology, vascular and cardiovascular medicine and surgery, phlebology, lymphology, thrombo-embolic disease and interventional techniques. An outstanding Faculty has been assembled to provide the most up-to-date best practice guidelines on vascular topics.

I would like to invite you join us in this project and to actively contribute by providing examples of your scientific work to the Meeting. You will be able to meet many specialists from countries around the world and discuss clinical cases, new research results and major advances in the fields of angiology, phlebology and of vascular medicine and surgery.

We look forward to receiving original scientific papers from young researchers of different countries worldwide. Free paper sessions will be organized and dedicated IUA Prizes sessions for young researchers will be part of the programme.

Rome is a unique destination rich in history, art and culture, and has always been very attractive for vascular specialists. April is a very pleasant time of the year to be in Italy.

I look forward to seeing you in Rome.

Professor Pier Luigi Antignani
President of the Congress

INVITATION FROM THE PRESIDENT OF THE IUA

Dear Colleagues,

it is a very special pleasure for me to invite you all to participate in the forthcoming 29th World Congress of the International Union of Angiology to be held in Rome on April 22-26, 2020.

World Congress of the International Union of Angiology offers a great global platform being described as “Vascular without borders”. Experts from different specialties including vascular surgery, vascular intervention, vascular medicine, phlebology, cardiology and sonography etc. will meet to share their latest research findings and expertise in clinical treatment and care, permitting the communication and discussion on all kinds of vascular diseases.

The Organizing Committee, led by Professor Pier Luigi Antignani, will prepare all the best ingredients to make a great scientific meeting as well as a unique cultural and human experience.

I believe the congress will be a successful one and the participants would not only gain valuable information and insights in the vascular field, but also friendship with colleagues and network with industry.

I sincerely invite you to attend this congress.

Professor Yongquan Gu
President of the International Union of Angiology

INTERNATIONAL UNION OF ANGIOLOGY

EXECUTIVE AND ADMINISTRATIVE BOARD

BALAS	Panayotis	Greece	Honorary President
GU	Yong Quan	China	President
ANTIGNANI	Pier Luigi	Italy	President Elect, Vice Pres. Europe
CARPENTIER	Patrick	France	Past President
PITHA	Jan	Czech Republic	Secretary General
GUO	Lian-Rui	China	Associate Secretary General
KARPLUS	Thomas	Australia	Treasurer General
BLAISE	Sophie	France	Associate Treasurer General

Vice Presidents

MIYATA	Tetsuro	Japan	Asia
NANDURKAR	Harshal	Australia	Australia, New Zealand
LIU	Peng	China	China

TOPICS

- Acute arterial thrombosis
- Aesthetics and vascular disease
- Ageing and vascular diseases
- Anti platelet pharmacotherapy
- Aortic and arterial aneurysm
- Arterial and venous thrombosis: anti-thrombotic drugs, the new oral anticoagulant
- Arterial hypertension and vascular complications
- Arteritis
- Asymptomatic carotid plaque
- Atherosclerosis: risk factors, screening, biomarkers, vascular biology
- Bioinformatics and vascular diseases
- CEAP: a critical review
- Cardiovascular and cerebrovascular diseases
- Chronic critical leg ischemia
- Chronic venous disease: prevention and post-thrombotic syndrome, compression therapy, venous haemodynamics
- CLI: new development for medical interventional and surgical treatment
- Connective Vascular diseases
- Diabetes and vascular complications
- Diseases of the lymphatics
- Drugs active on the heart and peripheral circulation
- Education of the vascular patient
- Endovascular surgery
- Epidemiology of vascular diseases
- Evidence-based medicine
- Experimental angiology
- Genetics and vascular diseases: new development in gene therapy for cardiovascular disease
- Haemorheology and microcirculation
- Hypertension
- Imaging technology for cardiovascular disease
- Immunology and vascular disease

TOPICS cont.

- Inflammation and atherosclerosis
- Innovations in anticoagulant therapy
- Interventional therapy in vascular disease
- Lower extremity arterial disease
- Menopause and vascular diseases
- Microcirculation in peripheral venous and arterial diseases
- Multi-focal atherosclerosis: medical and surgical therapy
- New and old heparins
- New insights for prevention, diagnosis and treatment
- New insights in pharmacological treatment of CVI
- Non-invasive investigation, vascular imaging
- Peripheral obstructive arterial disease
- Pharmacotherapy in the cardiovascular system
- Portal hypertension
- Precision medicine and the management of vascular diseases
- Prevention of stroke: management of carotid artery disease, hypertension, atrial fibrillation
- Pulmonary embolism and pulmonary hypertension
- Raynaud's disease
- Reconstructive surgery in arterial disease conventional and endovascular
- Rehabilitation in angiology
- Renin-angiotensin system and vascular wall alterations
- Statins and other lipid lowering drugs in atherosclerosis
- Supraaortic trunk arterial disease
- Surgical treatment for chronic venous disease and post-thrombotic syndrome
- The diabetic foot
- Thrombolytic drugs in arterial and venous diseases
- Vascular malformations, lymphedema
- Vasculitis
- Vascular centres
- Vascular manifestations of renal diseases
- Venous thromboembolism: prevention and treatment

November 30th, 2019

Early registration deadline

GENERAL INFORMATION

Registration Fees (22% VAT included)

	By November 30 2019	After November 30 2019
IUA Members*	€ 450,00	€ 520,00
Non Members	€ 520,00	€ 600,00
Residents **	€ 150,00	€ 200,00
IUA Youth Committee members***	Free registration	
Accompanying person	€ 200,00	
Gala Dinner	€ 100,00	

* To benefit from reduced registration fee, members of IUA must have settled their membership fee

** Residents must submit a certificate from the learning Institution as proof and they are not eligible to get credits

*** Membership proof must be enclosed to the registration form

The registration fee includes:

- Admission to the congress area, scientific sessions and CME programme
- Congress kit
- Certificate of attendance
- Lunch and coffee stations
- Welcome cocktail

Language

Official language is English. No simultaneous translation available

CME

The European accreditation with UEMS (European Union of Medical Specialists)
will be requested for this programme

Prizes

Best oral presentations by young researchers will be awarded in dedicated sessions

HOTEL ACCOMMODATION

ERGIFE PALACE HOTEL ****

Via Aurelia 619, 00165 Rome, Italy

www.ergifepalacehotel.com

The Ergife Palace Hotel (www.ergifepalacehotel.com) is a four star hotel with all comforts and services.

The Organising Secretariat can offer any kind of accommodation upon request.

Other hotels nearby will be selected and published on the website.

For hotel accommodation, please contact: booking@iua2020.com
